Information in this document and on the CD is from my own experience plus documentation compiled from government sources. No information in this judgment system should be considered legal advice because I am not a lawyer. Instead I got into judgment collection because I was a landlord and I won a small claims judgment against a couple of my ex-tenants but they never paid me the money I won. I was frustrated and researched what the next steps were. I was successfully able to collect that first judgment using wage garnishments and Anoka County (MN) Sheriff's office that did the actual wage garnishment demand to my ex-tenants employer. I do not want to make it seem that I am giving legal advice because I am not, and some laws can change without my knowledge (thus it would not be reflected in this judgment system). I did my best writing this system, but some information could be old or even wrong, but this should help you get you started.

How to Make Money Collecting Judgments

Dear Friend:

I would like to personally welcome you to the exciting judgment collections. Whether you are doing it to collect judgment(s) owned to you OR you want to make a part-time or full-time living helping others collect money owed to them. By purchasing this system is your first step into this sometimes lucrative way to make money from your home or from an office.

Collecting money judgments for others is in demand. Not too many people know how to do this. This is a great service for your clients that once they start getting some of their money back they will use your services again and also spread the word by "word of mouth" to others which is the best way to grow your business without advertising.

Chapter 1 contains a short 1-page summary of the process. This complete Adobe Reader .pdf system has clickable links throughout this document (including the table of contents).

The original content of this was from my own experiences when I was a landlord. I started to document the steps from the time I did my very first judgment against my ex-tenants. Then I became a real estate agent and mortgage loan office where my services became in demand from co-workers and home buyers and sellers alike so I expanded my own notes and documentation. Then it kept growing to what you see here.

The links can go to another page in this very document OR it may take you to the internet. Some of the documents, notes, links may contain live references (or pointers) to information created and maintained by other organizations and people. Please note that I do not control and cannot guarantee the relevance, timeliness, or accuracy of these outside materials.

Very truly yours,
